

60 Capsules per Bottle

An advancement in Cellular Renewal – helping Nature do what it is designed to do!

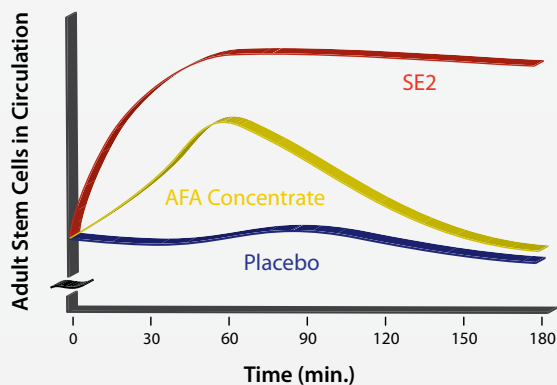

Stemtech was first to discover the way to support the body’s natural renewal system by supporting the release of more adult stem cells into the bloodstream. Our Advanced Formula now brings a new discovery to the forefront with a longer-lasting formulation that that helps the body maintain and repair tissues and organs.

SE2 is not a traditional multivitamin supplement that works to supply nourishment to old cells. Instead, SE2 supports the natural release of “master” cells that can transform themselves into healthy new cells.

A patented-pending, proprietary blend of extraordinary, all-natural ingredients starting with AFA Concentrate.

Tests show SE2 supports the release of millions MORE adult stem cells...for a longer period of time.

In a double-blind crossover study, our SE2 StemRelease™ Complex showed superior results.

FEATURES	BENEFITS
<i>Aphanizomenon flos-aquae</i> (AFA Concentrate)	documented to support the natural release of adult stem cells from bone marrow.
<i>Undaria pinnatifida</i>	a marine alga from pristine ocean environments around the world well known to support the immune system. Fucoidan from <i>Undaria pinnatifida</i> has been documented to support a long-lasting increase in the number of circulating stem cells.
<i>Polygonum multiflorum</i>	an herb with a long history of support health and rejuvenation. An extract of <i>Polygonum multiflorum</i> was recently documented to support the release of stem cells from the bone marrow.
<i>Cordyceps sinensis</i>	a synergistic ingredient that has been associated with stamina and longevity, and a wide variety of health benefits. When used with AFA Concentrate, fucoidan from <i>Undaria pinnatifida</i> and <i>Polygonum multiflorum</i> extract, this combination enhances the support of stem cell release.

INGREDIENTS / LABEL

SE2[®] is a blend of patented and patent pending ingredients that supports the natural release of adult stem cells in the body, thereby assisting in the maintenance of optimal health.*

SE2 is an advanced formula of the world's first stem cell enhancer!

SE2[®] es una mezcla de ingredientes patentados, la cual apoya la liberación natural de células madre adultas en el cuerpo, asistiendo de esta manera el mantenimiento óptimo de la salud.*

¡SE2 es una fórmula avanzada del primer promotor patentado de células madre adultas en el mundo!

Warnings: As with all dietary supplements it is recommended that you consult your physician if you are pregnant, nursing, under treatment for any illness or taking anti-coagulants or other medications. Keep out of reach of children and pets. Do not use if safety seal is broken.

Advertencias: Como con cualquier suplemento dietario se recomienda que consulte a su médico si está embarazada, lactando, está recibiendo tratamiento para alguna enfermedad médica o tomando anticoagulantes o medicamentos. Manténgase fuera del alcance de los niños. No lo utilice si el sello está roto.

Product of the U.S.A.
Rev. 1111 Item Code: 1002

USAGE

1100 mgs (2 capsules) orally one to two times a day.

FOR YOUR INFORMATION

Vegan 2 part capsule

No sugar, artificial colors, artificial flavors, soy, dairy, yeast, or preservatives

FAQ'S

What is the benefit of taking SE2™?

SE2 supports the natural release of your own adult stem cells from the bone marrow into circulation. Many scientific studies have shown that a greater amount of circulating adult stem cells equates to a greater quality of health.

How long does SE2 work in the body?

Two capsules (1100 mgs) of SE2 support the release of adult stem cells from the bone marrow for up to three hours.

What is SE2 made from and how is it different than just whole *Aphanizomenon flos-aquae*?

SE2 contains StemRelease™ Complex, a patent-pending blend of proprietary nutrient-dense concentrates of *Aphanizomenon flos-aquae* (AFA Concentrate). PLUS three ingredients now discovered to work in partnership with AFA Concentrate to support a significant increase in the release of adult stem cells.

For further FAQs, go to stemtech.com.

Vitamin K in SE2: Like many foods, SE2 contains naturally occurring vitamin K. Two capsules have approximately 21 mcg of vitamin K (for further reference, half a cup of raw chopped broccoli has roughly 100 mcg of vitamin K and half a cup of boiled spinach has about 540 mcg of vitamin K.).

Label statement: Consult your physician if pregnant or nursing. (Many products carry such warnings out of an abundance of caution rather than any known pregnancy risk. We know of no evidence that consuming SE2 during pregnancy creates a health risk.)

PEA: SE2 contains a naturally occurring compound known as Phenylethylamine (PEA). PEA is naturally produced by the brain and known to support mood and mental energy. PEA is made by the brain whenever one feels content and happy; it has been described as the "molecule of joy".
